

## YOU MANAGE YOUR BUSINESS; WE'LL MANAGE YOUR PAYMENTS

Businesses serving other businesses (B2B) continue to experience significant growth in payments via Purchasing and Corporate Credit Cards — this is one of the fastest-growing segments of credit card payments. When a payment system is not properly set up for B2B payments it can significantly impact the bottom line with excessive fees.

**MSP Consulting's solutions reduce fees by up to 40 percent** and support the unique requirements of B2B processing. Our optimized, level 3 solutions support a variety of businesses, from large corporations to smaller suppliers. Our customized B2B payments solutions:

- Address the unique requirements of manufacturers, distributors, wholesalers and service firms
- Optimize credit cards, debit cards, echeck and ACH payments to minimize cost, mitigate risk and improve processes
- Incorporate fraud management tools and processes to help avoid fraudulent transactions and chargebacks
- Deliver secure solutions certified as PCI DSS compliant
- Simplify payment tracking and reconciliation with comprehensive, customizable payment reporting
- Improve cash flow and minimize Days Sales Outstanding (DSO)

### EXPERTISE:

- \$14 billion in credit card sales managed
- 212 million credit card transactions managed
